

# Building Interactive Systems

# **INTEGRATE Final Milestone**

**Professor Bilge Mutlu | Spring 2023**

# INTEGRATE PROJECTS: **Final Milestone**

**High-level goal:** *Evaluation & presentation*

1. **Step 1:** Evaluation using guerilla testing
2. **Step 2:** Analysis & reporting
3. **Step 3:** Storyboarding your paper
4. **Step 4:** Writing
5. **Step 5:** Supplementary Materials

# Step 1: Evaluation

- Basic testing with 3-5 users
- Quantitative and qualitative metrics

# Usability Cafe

## Step 2: Analysis

- Descriptive statistics
- Thematic analysis

## Step 3: Storyboarding your paper

- Develop a "story" for your contribution
- Contextualize it in the literature
- Generate a flow that best fits the contribution

## Step 4: Write

- 4-6 page paper
- Overleaf, ACM proceedings format
- 3+ figures

## Step 5: **Supplementary Materials**

- A 1-min video demonstration of your system (expected with UIST submissions)
- Anonymized data
- Questions, metrics you used
- Source code for your system
- All included in an OSF repo

# Recap

**High-level goal:** *Evaluation & presentation*

1. **Step 1:** Evaluation using guerilla testing
2. **Step 2:** Analysis & reporting
3. **Step 3:** Storyboarding your paper
4. **Step 4:** Writing
5. **Step 5:** Supplementary Materials
